## Výběr ze světové bryologické literatury [Selection from the world bryological literature]

- Adamo P., Giordano S., Sforza A. & Bargagli R. (2011): Implementation of airborne trace element monitoring with devitalised transplants of *Hypnum cupressiforme* Hedw.: assessment of temporal trends and element contribution by vehicular traffic in Naples city. – *Environmental Pollution* 159: 1620–1628.
- Akiyama H. (2010): Taxonomic revision of the genus *Trismegistia* (*Pylaisiadelphaceae*, *Musci*). – *Humans and Nature* 21: 1–77.
- Allan Green T. G., Sancho Leopoldo G. & Pintado A. (2011): Ecophysiology of desiccation/rehydration cycles in mosses and lichens. – In: Lüttge U., Beck E. & Bartels D. (eds), *Plant Desiccation Tolerance, Ecological Studies Vol. 215*, Springer Verlag, p. 89–120.
- Arróniz-Crespo M., Gwynn-Jones D., Callaghan T. V., Núñez-Olivera E., Martínez-Abaigar J., Horton P. & Phoenix G. K. (2011): Impacts of long-term enhanced UV-B radiation on bryophytes in two sub-Arctic heathland sites of contrasting water availability. – *Annals of Botany* 108: 557–565.
- Asada T., Warner B. & Aravena R. (2005): Effects of the early stage of decomposition on change in carbon and nitrogen isotopes in *Sphagnum* litter. – *Journal of Plant Interactions* 1: 229–237.
- Asakawa Y. (2011): Bryophytes: chemical diversity, synthesis and biotechnology. A review. – *Flavour and Fragrance Journal* 26: 318–320.
- Atala C. (2011): Water transport and gas exchange in the non-vascular plant *Dendrologotrichum dendroides* (Brid. ex Hedw.) Broth. (Polytrichaceae, Bryophyta). – *Gayana Botanica* 68: 89–92.
- Bachtrog D., Kirkpatrick M., Mank J. E., McDaniel S. F., Pires J. C., Rice W. R. & Valenzuela N. (2011): Are all sex chromosomes created equal? – *Trends in Genetics* 27: 350–357.
- Bakalin V. (2011): Notes on *Lophozia* VI. Taxonomy and distribution of *Lophozia* and *Schistochilopsis* (Lophoziaceae) in North America north of Mexico. – *Bryologist* 114: 298–315.
- Bakalin V. A., Chernyagina O. A. & Kirichenko V. E. (2011): Characteristics of hepatics flora of thermal habitats in Kamchatka. – *Contemporary Problems of Ecology* 4: 28–34.
- Bartels D. & Hussain S. S. (2011): Resurrection plants: physiology and molecular biology. – In: Lüttge U., Beck E. & Bartels D. (eds), *Plant Desiccation Tolerance, Ecological Studies Vol. 215*, Springer Verlag, p. 339–364.
- Bartels D., Lüttge U. & Beck E. (2011): Synopsis: drying without dying. – In: Lüttge U., Beck E. & Bartels D. (eds), *Plant Desiccation Tolerance, Ecological Studies Vol. 215*, Springer Verlag, p. 367–373.
- Baumann M. (2011): Zum Vorkommen von *Tayloria tenuis* im Erzgebirge [On the occurrence of *Tayloria tenuis* in the Ore Mountains (Saxony)]. – *Herzogia* 24: 103–119.
- Belén Estébanez P., Draper I. D. de Atauri & Medina Bujalance R. (2011): Briófitos: una aproximación a las plantas terrestres más sencillas [Bryophytes: an approximation to the simplest land plants]. – In: Montesinos J. L. V. (ed.), *Biodiversidad, Aproximación a la diversidad botánica y zoológica de España, Memorias de la Real Sociedad Española de Historia Natural*, 2ª ép., 9, Madrid, p. 19–73.
- Benassi M., Stark L. R., Brinda J. C., McLetchie D. N., Bonine M. & Mishler B. D. (2011): Plant size, sex expression and sexual reproduction along an elevation gradient in a desert moss. – *Bryologist* 114: 277–288.
- Benavides J. C. & Sastre-De Jesús I. (2011): Diversity and rarity of epiphyllous bryophytes in a superhumid tropical lowland forest of Choco-Colombia. – *Cryptogamie Bryologie* 32: 119–133.
- Bergmeier E., Blockeel T., Böhling N., Fournaraki C., Gotsiou P., Jahn R., Lansdown R. & Turland N. (2011): An inventory of the vascular plants and bryophytes of Gavdopoula island (S Aegean, Greece) and its phytogeographical significance. – *Willdenowia* 41: 179–190.
- Bernard E. L. & Schäfer-Verwimp A. (2011): Checklist of the bryophytes of the Guadeloupe archipelago and Martinique (French West Indies). – *Cryptogamie Bryologie* 32: 233–272.

- Bidartondo M. I., Read D. J., Trappe J. M., Merckx V., Ligrone R. & Duckett J. G. (2011): The dawn of symbiosis between plants and fungi. – *Biology Letters* 7: 574–577.
- Bönsel A. & Sonneck A.-G. (2011): Effects of a hydrological protection zone on the restoration of a raised bog: a case study from Northeast-Germany 1997–2008. – *Wetlands Ecology and Management* 19: 183–194.
- Boquete M. T., Fernández J. A., Aboal J. R. & Carballeira A. (2011): Analysis of temporal variability in the concentrations of some elements in the terrestrial moss *Pseudoscleropodium purum*. – *Environmental and Experimental Botany* 72: 210–216.
- Boquete M. T., Fernández J. A., Aboal J. R. & Carballeira A. (2011): Are terrestrial mosses good biomonitors of atmospheric deposition of Mn? – *Atmospheric Environment* 45: 2704–2710.
- Brown R. C. & Lemmon B. E. (2011): Spores before sporophytes: hypothesizing the origin of sporogenesis at the algal-plant transition. – *New Phytologist* 190: 875–881.
- Bu Z.-J., Rydin H. & Chen X. (2011): Direct and interaction-mediated effects of environmental changes on peatland bryophytes. – *Oecologia* 166: 555–563.
- Budke J. M., Goffinet B. & Jones C. S. (2011): A hundred-year-old question: is the moss calyptra covered by a cuticle? A case study of *Funaria hygrometrica*. – *Annals of Botany* 107: 1279–1286.
- Burgess K. S., Fazekas A. J., Kesanakurti P. R., Graham S. W., Husband B. C., Newmaster S. G., Percy D. M., Hajibabaei M. & Barrett S. C. H. (2011): Discriminating plant species in a local temperate flora using the *rbcL* plus *matK* DNA barcode. – *Methods in Ecology and Evolution* 2: 333–340.
- Callaghan D. & Bowyer H. (2011): Chemical characteristics of the soil occupied by *Cephaloziella massalongi* and *C. nicholsonii* in Cornwall (UK). – *Journal of Bryology* 33: 173–176.
- Canivet L. & Denayer F.-O. (2011): Staining of protonemal cells of *Ceratodon purpureus* (Hedw.) Brid. for better highlighting micronuclei in bryophytes. – *Cryptogamie Bryologie* 32: 211–220.
- Cano M. J., Guerra J., Jiménez J. A., Gallego M. T. & Orgaz D. J. (2010): An updated bryophytes checklist of the region of Murcia (Southeastern Spain). – *Anales de Biología* 32: 101–131.
- Chang Y. & Graham S. W. (2011): Bryophyte-specific primers for retrieving plastid genes suitable for phylogenetic inference. – *American Journal of Botany* 98: e109–e113.
- Chang Y. & Graham S. W. (2011): Inferring the higher-order phylogeny of mosses (*Bryophyta*) and relatives using a large, multigene plastid data set. – *American Journal of Botany* 98: 839–849.
- Chater C., Kamisugi Y., Movahedi M., Fleming A., Cuming A. C., Gray J. E. & Beerling D. J. (2011): Regulatory mechanism controlling stomatal behavior conserved across 400 million years of land plant evolution. – *Current Biology* 21: 1025–1029.
- Chuah-Petiot M. S. (2011): A checklist of *Hepaticae* and *Anthocerotae* of Malaysia. – *Polish Botanical Journal* 56: 1–44.
- Costa D. P., Pôrto K. C., Luizi-Ponzo A. P., Ilkiu-Borges A. L., Bastos C. J. P., Câmara P. E. A. S., Peralta D. F., Bôas-Bastos S. B. V., Imbassahy C. A. A., Henriques D. K., Gomes H. C. S., Rocha L. M., Santos N. D., Siviero T. S., Vaz-Imbassahy T. F. & Churchill S. P. (2011): Synopsis of the Brazilian moss flora: checklist, distribution and conservation. – *Nova Hedwigia* 93: 277–334.
