Výběr ze světové bryologické literatury [Selection from the world bryological literature]

- Aboal J. R., Fernández J. A., Couto J. A. & Carballeira A. (2008): Testing differences in methods of preparing moss samples. – *Environmental Monitoring and Assessment* 137: 371–378.
- Adamo P., Bargagli R., Giordano S., Modenesi P., Monaci F., Pittao E., Spagnuolo V. & Tretiach M. (2008): Natural and pre-treatments induced variability in the chemical composition and morphology of lichens and mosses selected for active monitoring of airborne elements. – *Environmental Pollution* 152: 11–19.
- Adams D. G. & Duggan P. S. (2008): Cyanobacteria-bryophyte symbioses. – *Journal of Experimental Botany* 59: 1047–1058.
- Afonina O. M., Ignatova E. A. & Maksimov A. I. (2006): *Stereodon fertilis* (Pylaisiaceae, Musci) in Russia. – *Botanicheskiy Zhurnal* 91: 329–335.
- Anterola A. & Shanle E. (2008): Genomic insights in moss gibberellin biosynthesis. – *Bryologist* 111: 218–230.
- Asakawa Y. (2007): Biologically active compounds from bryophytes. – *Chenia* 9: 73–104.
- Astel A., Astel K. & Biziuk M. (2008): PCA and multidimensional visualization techniques united to aid in the bioindication of elements from transplanted *Sphagnum palustre* moss exposed in the Gdańsk city area. – *Environmental Science and Pollution Research* 15: 41–50.
- Bączkiewicz A., Sawicki J., Buczkowska K., Polok K. & Zieliński R. (2008): Application of different DNA markers in studies on cryptic species of *Aneura pinguis* (Jungermanniopsida, Metzgeriales). – *Cryptogamie Bryologie* 29: 3–21.
- Balan C., Bilba D. & Macoveanu M. (2008): Removal of cadmium (II) from aqueous solutions by *Sphagnum* moss peat: Equilibrium study. – *Environmental Engineering and Management Journal* 7: 17–23.
- Baptista M. S., Vasconcelos M. T. S. D., Cabral J. P., Freitas M. C. & Pacheco A. M. G. (2008): Copper, nickel and lead in lichen and tree bark transplants over different periods of time. – *Environmental Pollution* 151: 408–413.
- Barandovski L., Cekova M., Frontasyeva M. V., Pavlov S. S., Stafilov T., Steinnes E. & Urumov V. (2008): Atmospheric deposition of trace element pollutants in Macedonia studied by the moss biomonitoring technique. – *Environmental Monitoring and Assessment* 138: 107–118.
- Basile A., Sorbo S., Aprile G., Conte B. & Cobianchi R. C. (2008): Comparison of the heavy metal bioaccumulation capacity of an epiphytic moss and an epiphytic lichen. – *Environmental Pollution* 151: 401–407.
- Bates J. W., Matcham H. W. & Lara F. (2007): *Dialytrichia fragilifolia* (Bryopsida: Pottiaceae) in Berkshire and Caernarvonshire, new to Britain. – *Journal of Bryology* 29: 228–234.
- Belnap J., Phillips S. L. & Smith S. D. (2007): Dynamics of cover, UV-protective pigments, and quantum yield in biological soil crust communities of an undisturbed Mojave Desert shrubland. – *Flora* 202: 674–686.
- Bergamini A., Müller N., Peintinger M., Schnyder N. & Stofer S. (2007): Die Wassermoosflora des Rheinfalls bei Schaffhausen im Vergleich zu den 1930er Jahren. – *Botanica Helvetica* 117: 202–207.
- Black P. L., Arnason J. T., Cuerrier A. (2008): Medicinal plants used by the Inuit of Qikiqtaaluk (Baffin island, Nunavut). – *Botany – Botanique* 86: 157–163.
- Boudreault C., Coxson D. S., Vincent E., Bergeron Y. & Marsh J. (2008): Variation in epiphytic lichen and bryophyte composition and diversity along a gradient of productivity in *Populus tremuloides* stands of northeastern British Columbia, Canada. – *Ecoscience* 15: 101–112.
- Breuer A., Heijmans M. M. P. D., Robroek B. J. M. & Berendse F. (2008): The effect of temperature on growth and competition between *Sphagnum* species. – *Oecologia* 156: 155–167.

- Brinda J. C., Stark L. R., Shevock J. R. & Spence J. R. (2007): An annotated checklist of the bryophytes of Nevada, with notes on collecting history in the state. – *Bryologist* 110: 673–705.
- Cailliau A. & Price M. J. (2007): Hornworts in the agricultural fields of Geneva: new findings, the soil diaspore bank and ex situ soil cultures. – *Candollea* 62: 165–172.
- Calabrese G. M. & Muñoz J. (2008): *Zygodon* (*Orthotrichaceae*) in the Iberian Peninsula. – *Bryologist* 111: 231–247.
- Callaghan D. A. & Ashton P. A. (2007): Bryophyte clusters and sand dune vegetation communities. – *Journal of Bryology* 29: 213–221.
- Cano M. J. & Gallego M. T. (2008): The genus *Tortula* (*Pottiaceae*, *Bryophyta*) in South America. – *Botanical Journal of the Linnean Society* 156: 173–220.
- Cassie D. M., Piercey-Normore M. D., and Belland R. J. (2008): Population Structure of *Dicranum elongatum* in Northeastern Regions of Wapusk National Park, Manitoba, Canada. – *Bryologist* 111: 302–309.
- Chambers P. A., Lacoul P., Murphy K. J. & Thomaz S. M. (2008): Global diversity of aquatic macrophytes in freshwater. – *Hydrobiologia* 595: 9–26.
- Clarke L. J., Ayre D. J. & Robinson S. A. (2008): Somatic mutation and the Antarctic ozone hole. – *Journal of Ecology* 96: 378–385.
- Cvetić T., Sabovljević A., Sabovljević M. & Grubišić D. (2007): Development of the moss *Pogonatum urnigerum* (Hedw.) P. Beauv. under *in vitro* culture conditions. – *Archives of Biological Sciences* 59: 57–61.
- Deckor E. L. & Reski R. (2007): Moss bioreactors producing improved biopharmaceuticals. – *Current Opinion In Biotechnology* 18: 393–398.
- Diéguez C., Rodríguez-López J. P. & Meléndez N. (2007): Marchantiopsid colonization mats from the Upper Aptian–Lower Albian of the Escucha Formation (Oliete Sub-Basin, Iberian Ranges, eastern Spain). – *Comptes Rendus Palevol* 6: 413–422.
- Draper I., Mazimpaka V. & Lara F. (2008): New records to the epiphytic bryophyte flora of Tunisia. – *Cryptogamie Bryologie* 29: 83–91.
- Drozd P., Plášek V., Dolný A., Kočárek P. & Jašík M. (2007): Factors or mosses – What the bryobionts prefer? – *Nowellia Bryologica* 34: 9–10.
- Ellis L. T. (2007): Bryophyte flora of Uganda. 7. *Calymperaceae* and *Octoblepharaceae*. – *Journal of Bryology* 29: 259–274.
- Equihua C. & Equihua M. (2007): Spatial distribution of *Bryopteris filicina* on tree trunks in the Selva Lacandona, Chiapas, Mexico. – *Bryologist* 110: 766–775.
- Erzberger P. & Papp B. (2007): New and noteworthy bryophyte records from Montenegro and Serbia. – *Willdenowia* 37: 339–352.
- Espinar J. L. & Clemente L. (2007): The impact of vertic soil cracks on submerged macrophyte diaspore bank depth distribution in Mediterranean temporary wetlands. – *Aquatic Botany* 87: 325–328.
- Fisher K. M. (2008): Bayesian reconstruction of ancestral expression of the LEA gene families reveals propagule-derived desiccation tolerance in resurrection plants. – *American Journal of Botany* 95: 506–515.
- Fojcik B., Stebel A., Fudali E., Plášek V., Rusińska A., Żarnowiec J., Zmrhalová M., Zubel R., Gorski P., Cykowska B. & Wilhelm M. (2007): Materiały do bryoflory Ojcowskiego Parku Narodowego [Contribution to the bryoflora of Ojców National Park]. – *Prądnik. Prace i Materiały Muzeum Im. Prof. W. Szafera*, 17: 79–94.
- Frahm J.-P. (2008): Diversity, dispersal and biogeography of bryophytes (mosses). – *Biodiversity and Conservation* 17: 277–284.
- Fritz Ö., Gustafsson L. & Larsson K. (2008): Does forest continuity matter in conservation? – A study of epiphytic lichens and bryophytes in beech forests of southern Sweden. – *Biological Conservation* 141: 655–668.
- Fudali E. (2007): Human traces in the bryophyte flora of the summit region of Karkonosze Mts (Polish side). – *Acta Societatis Botanicorum Poloniae* 76: 345–349.
- Fujita T., Sakaguchi H., Hiwatashi Y., Wagstaff S. J., Ito M., Deguchi H., Sato T. & Hasebe M. (2008): Convergent evolution of shoots in land plants: lack of auxin polar transport in moss shoots. – *Evolution & Development* 10: 176–186.
- Fuselier L. (2008): Variation in life history characteristics between asexual and sexual populations of *Marchantia inflexa*. – *Bryologist* 111: 248–259.
- Garbary D. J., Miller A. G., Scrosati R., Kim K.-Y., & Schofield W. B. (2008): Distribution and salinity tolerance of intertidal mosses from Nova Scotian salt marshes. – *Bryologist* 111: 282–291.

- Garcia C., Sérgio C. & Jansen J. (2008): The bryophyte flora of the natural park of Serra da Estrela (Portugal): Conservation and Biogeographical approaches. – *Cryptogamie Bryologie* 29: 49–73.
- Grimm A., Zanzi R., Björnbom E. & Cukierman A. L. (2008): Comparison of different types of biomasses for copper biosorption. – *Bioresource Technology* 99: 2559–2565.
- Groeneveld E. V. G., Masse A. & Rochefort L. (2007): *Polytrichum strictum* as a nurse-plant in peatland restoration. – *Restoration Ecology* 15: 709–719.
- Grundmann M., Ansell S. W., Russell S. J., Koch M. A. & Vogel J. C. (2008): Hotspots of diversity in a clonal world - the Mediterranean moss *Pleurochaete squarrosa* in Central Europe. – *Molecular Ecology* 17: 825–838.
- Guerra J. (2007): *Pohlia* section *Cacodon* (*Mielichhoferiaceae*, *Bryophyta*) with axillary bulbils in the Iberian Peninsula. – *Anales del Jardín Botánico de Madrid* 64: 55–62.
